

Sirennet SNLBL5 LED Lightbar

The Sirennet SNLBL5 LED Lightbar is sleek and versatile with a price point to fit any budget. The corner modules have 6 LEDs each and the inboards have 3 LEDs each. The takedowns are built with 3 LEDs for serious brightness and the alleys have 3 LEDs each. Low Profile Mounting Feet can be adjusted up to 1.25" on each side of the light bar to allow for positioning the feet to best match the contour of the vehicle roof. You can choose from either Headache Mount or Vehicle Specific Mount to mount this lightbar.
